The Associate Level Certification is designed for practitioners who have completed basic training but have not completed adequate training, education or work experience to qualify for the Professional Level Certification. This is an intermediate level that documents competence which exceeds entry level practice but does not have the range and depth normally associated with full professional practice. It is designed for practitioners who:

- have a minimum of three (3) years experience.
- have completed basic training in child care and youth work.
- have mastered fundamental concepts and are working on deeper knowledge and expanding their range of skills.
- provide supervision and guidance to less experienced practitioners and receive supervision from others with more advanced credentials.
